

Program 2018

APPLICATION GUIDE

Industrial Science and Management
Faculty of Science and Technology
Thammasat University

1

This booklet is intended to give you the advice on how to apply for iSC-TU entrance candidates. Please read it carefully; its contents will be invaluable in discussion with admission services. The booklet is available to obtain from our website at <http://www.isctu.com>. In order to help the candidates and their parents in following our application process, please check the admission requirement documents before making entries.

What is iSC-TU ?

A new, exciting, and rapidly expanding program – **The Industrial Science and Management (iSC) program at Thammasat University** brings forward a *high-standard, international, and competitive environment, fostering innovation, development, and moral commitment to society.*

iSC students have the opportunity to attain a Bachelor of Science in Industrial Science and Management with focus in three fields: *Biotechnology, Food Science and Technology, or Applied Chemistry*

Each of which provides the student with an education tailored to produce confidence and distinction to continue in careers interlinking science and technology, with industry and management.

iSC encourages a diverse faculty with international ties as well as strong background in teaching. All lectures are solely conducted in English. All lecturers have selectively been chosen in order to provide the best educational experience possible for the students at iSC.

Graduating from the iSC program expands the horizon of the pathway the students may choose in their journey to success. Our program brings out the best of the students – providing them with a true challenge and a foundation for excellence.

2

What makes us different ?

We are the first international program in Thailand that incorporates both Science and Management in one educational package. Our curriculum includes the opportunity to gain hands-on experience in industries both by internships and many site visits. The students get a well-rounded education, which will serve as a gateway to further education and/or industrial experiences.

Partnerships

Subjects we offer

Faculty of Science and Technology offers Bachelor of Science degree in Industrial Science and Management with three major focuses:

- Biotechnology
- Applied Chemistry
- Food Science and Technology

Each major has its own core and industrial-oriented courses of 32 credits from total of 136 credits. Respectively, there are 30 credits of general education offered by Thammasat University throughout the four year course.

First year, courses are mainly **Mathematics & Science education**.

Second year, students will enter the major that is most appropriate for them, finalized by their GPA and announced by iSC committee. There are **Management & Industrial-Oriented Courses** of 18 credits also arranged by iSC-TU throughout four year course for students in all majors to study together

Third year, there is a choice between core and extended curricula in each major. Students will spend a minimum of 180 hours during summer conducting **Field Training** to gain valuable industry experience by doing hands-on work solving private or public sector challenges.

Fourth year, courses are focused on **Professional Skill & Training courses** of 8 credits with Presentation Skill for Industrial Sciences and Management Seminar and Special Problems in Sciences and Technology.

Academic Curriculum

Year 1	Physics	Chemistry	Biology	Calculus	General Education
Year 2	Organic Chemistry	Biochemistry	Statistics	General Education/ Management option	Inorganic chemistry
	Analytical Chemistry	Physical Chemistry	Accounting		Food law
Year 3	Process Engineer	Management option	Chemistry Option		Training (>180 hrs)
			Food S&T Option		
			Biotechnology option		
Year 4	Seminar	Management option	Chemistry Option		Free elective
	Project		Food S&T Option		
			Biotechnology option		

How do I apply ?

In order to apply, please visit <http://www.isctu.com> (and press the “apply now” button) or visit <https://www.tuadmissions.in.th> directly. All documents must be certified true copy by the applicant and scan as files to use for online application. Please prepare all documents in.pdf (2MB limited). Fill in all necessary information as stated in the online form.

What documents are required for the application ?

Applicants must apply Online only and scan all documents in pdf files and ready for upload in application process. The original documents must be available for the interview

- ✓ 1 inch photograph (wearing uniform if possible) and
Photocopy of official identification document or passport (for overseas student) and
Photocopy of official house registration (Thai students only)
Photocopy of official high school transcript

****Scan and save into one PDF File ****
